

WELLESLEY MUNICIPAL LIGHT PLANT

ELECTRIC RATE SCHEDULE

PURCHASED POWER ADJUSTMENT

Rate Schedule PPA -1

MA DPU #09-8

APPLICABILITY

The Purchased Power Adjustment rate calculated pursuant to this rate schedule is applicable to all kilowatt-hours (“kWh”) delivered by the Wellesley Municipal Light Plant (“WMLP”) other than kWh’s supplied for Street Lighting, Distribution Wheeling and Partial Requirements services.

MONTHLY RATE

The WMLP Purchase Power Adjustment charge will increase by \$.000908/per kWh each month from February 2007 through, and including, February 2010. The purpose of the monthly phase-in is to avoid potential rate shock for all WMLP customers. The WMLP will absorb the higher power supply costs during the phase-in period by drawing down \$150,000/month from its rate stabilization fund beginning October 2007.

The Purchase Power Adjustment charge increase is required to fund the additional power supply costs:

- 1) Energy – Constellation Power Source, Inc. (“CPS”) “All Requirements” contract expired on September 30, 2007.
- 2) Installed Capacity (“ICAP”) – funding for ISO-New England ICAP transitional payments that went into effect upon the expiration of the CPS contract.
- 3) Transmission – pass through of increased Regional Network Service costs billed by ISO-New England.

EFFECTIVE TERM

The WMLP will re-evaluate the Purchase Power Adjustment charge in February 2010, upon completion of the monthly \$.000908 phase-in. The WMLP will ensure that the increase in PPA-1, MA DPU #09-8 will result in rate schedules for all classifications of customers that are in full compliance with Massachusetts General Law Chapter 164, Section 58, Price for Gas and Electricity Regulated.
