

**WELLESLEY MUNICIPAL LIGHT PLANT**

**MEMO**

**To: Michael D. Zehner, Planning Director  
Planning Department**

**From: David M. Allen, Supervisory Electrical Engineer  
Municipal Light Plant**

**Date: May 18, 2017**

**Subject: Project of Significant Impact Review PSI-17-01  
900 Worcester Street Recreation/Sports Complex**

We have reviewed the information provided for the subject project.

Based on the information provided, there is adequate system capacity in this area to accommodate the electrical needs of the project. Local modifications and expansion of the power facilities, in the immediate area on and around the property, will be required to serve the property. These can be handled through our routine customer connection processes. We will meet with representatives of the proposed project to finalize specification of the MLP work.

The MLP has no outstanding issues that should delay the approval of this project. If you have any questions please feel free to contact me.
