HEET Natural Gas Leaks

- ▲ Unrepaired Leak as of 2017 Report
- ▲ 2015/2016 Leak Missing from 2017 Report
- ▲ Leak Repaired in 2017

This map shows the approximate location of natural gas leaks in Wellesley as listed in the utility provider's Annual Service Quality Report to the State of Massachusetts Department of Public Utilities. This March 2018 report shows leaks as of December 31, 2017.

This data was provided by the Home Energy Efficiency Team (HEET), a tax-deductible nonprofit working to reduce the waste of fossil fuels. For more information contact Audrey.Schulman@HEETma.org.

The consultant gas readings on this map are a subset of townwide methane gas readings and are measured in parts per million (ppm). Generally accepted maximum ambient readings are around 2 ppm. These readings were collected between May 11 and June 15 of 2017.
