Nancy Braun Appointed to the Wellesley Natural Resources Commission

June 25, 2019 (Wellesley, MA) – The Wellesley Natural Resources Commission (NRC) is pleased to announce the appointment of Nancy Braun to the Commission. Braun was appointed at the June 24 joint meeting of the Board of Selectmen and the NRC, and will complete the remaining eight months of former Commissioner Lise Olney's term, who resigned from the NRC after her election to the Board of Selectmen in March.

Braun was one of five extremely-qualified residents to apply for the advertised position on the Commission, and was selected as the NRC's preferred candidate at its April 8 meeting at which four of the candidates were publicly interviewed. She was chosen based on her personal and professional background, and her impressive 20-year history of volunteer environmental work in Wellesley with civic and town-government entities. The Commissioners look forward to working with Braun in carrying out the mission of the NRC.

The NRC is also pleased that the Playing Fields Task Force has created a Field Lights subcommittee to investigate the possibility of adding additional and improving existing lighting equipment at playing fields in Town, and that Jim Miller, one of the applicants for the NRC position, will help lead this committee.

The NRC thanks all of the applicants who applied for the opening on the Commission, and looks forward to working alongside them as they continue their outstanding volunteer service to our community.
