John,

I did receive the plans. Everything looks good as far as access. You may proceed.

Thanks,
Deputy Mortarelli

Good Evening Deputy Chief Mortarelli,

I just wanted to confirm if you received my previous email with revised attachments. If there are no further issues with the proposed layouts, would you be able to send me an email confirming that the plans meet any Wellesley Fire Department Standards? We would like to use any confirmation as we proceed forward with meetings with the town so board members and abutters alike are at ease knowing your department has reviewed and been involved with the safety and design aspects of the projects.

Thank You,

John D. Federico

Good Morning Deputy Chief Mortarelli,

Thank you for giving me a call this morning with updates from your meeting with the engineer. Please find attached the two revised layouts which reflect a 5' wide striped access area in the parking lot of 170-184 Worcester Street as well as the relocated FDC near the sprinkler room on 3 Burke Lane. Should you have any more requests, please let me know.

Thank You,

John D. Federico
