Dear _____,

Thank you for your interest in volunteering for Wellesley as part of the Norfolk County-8 Medical Reserve Corps.

The Medical Reserve Corps (MRC) is a community-based network of volunteers that assists public health efforts in times of special need or disaster. The Norfolk County-8 Medical Reserve Corps was established by the local Boards of Health/Health Departments in Canton, Dedham, Milton, Needham, Norwood, Wellesley, Walpole, and Westwood, in order strengthen local public health, improve emergency response capabilities, and build resiliency. Residents with medical expertise as well as those with other important skills are needed to assist the Wellesley Health Department and the community in the event of a public health emergency. In addition, volunteers can also help with other local public health events, such as our annual flu clinics.

As part of our volunteer application process, we ask that you complete and sign the enclosed volunteer application form, as well as the other documents in your volunteer application packet, and return all of these forms to the Wellesley Health Department. In addition, you may visit the Wellesley Health Department if you need assistance making copies of your licenses.

In addition, we will be offering trainings throughout the year in our region. Please visit our website, norfolkcounty8.org for information regarding upcoming trainings and to learn more about both the Norfolk County-8 Local Public Health Coalition and our MRC.

Thank you again for you time and most of all, thank you for volunteering for the Medical Reserve Corps.

Sincerely,

Leonard Izzo
Director of Public Health
Wellesley Health Department

Cheryl Lefman
Community Health Coordinator
Wellesley Health Department
