

Preferred Schematic Report

Focus: Site Plans · Building Concepts · Cost Estimating · Selection

Option 6a – Site Center

- Good, flexible site design
- Buffer from neighborhood
- Reforestation on Ballfield
- Students Remain in Existing Building during Construction

Option 6c – On Existing

- Removes less ledge than 6a
- Retains ballfield
- “Split-Level” three story structure
- Less buffer for neighborhood on eastern half of site
- Less optimal onsite circulation
- Requires relocation of Students to Construct

Option 6c-R – On Existing

- Retains more ledge than 6c
- Retains ballfield
- “Split-Level” three story structure
- Less buffer for neighborhood on eastern half of site
- Less optimal onsite circulation
- Requires relocation of Students to Construct
