Earth, Space & Sea

Instructor: Wicked Cool Kids

Take a look at our big blue planet and beyond! Delve deep into space, train like an astronaut, and build air powered space shuttles to exit the atmosphere. Next, return to Earth to analyze the makeup of the planet's surface and Earth's extremes like earthquakes and erupting volcanoes. Then, we'll dive down deep into the ocean to explore like ocean engineers to stop an oil spill, and investigate ocean invertebrates.
