

# CITIZEN SCIENTISTS – WE NEED YOUR HELP!

@ Simons Park by the Wellesley Free Library

We are delaying mowing part of the lawn at Simons Park during May. By waiting until June to mow, we want to allow the grass to grow taller, clover to bloom, and other plants to flower and feed the pollinators. Where do you see more pollinators – unmowed or mowed lawn?

DOWNLOAD THE  
INATURALIST APP

GO TO PROJECTS  
AND SELECT JOIN
