

Fiske Fall 2022 Enrichment Afterschool

ACTIVITY #422501

Game Show

Instructor: CinemaKidz

Come-on downwwwn to the CinemaKidz Game Show – an exciting, interactive class, where kids learn to produce and star in their very own game show. This class is inspired by some of TV's most classic shows, from trivia to physical challenges and obstacle courses. Participants will plan their show, build various obstacles and puzzles, make team shirts, and compete in different challenges each class. Challenges will take place outdoors as well as in the classroom. We focus on teambuilding, creativity, and FUN! Kids will learn firsthand all about producing a live, action-packed show, then work to edit and complete several episodes

Show Time

Instructor: Cindy Wright

The show must go on!! Children will be given equitable, age-appropriate roles to play, sing, dance and act to bring a story to life. That performance will be video recorded on the last day of the session and the video will be emailed to parents. Children will be introduced to some basics of theater and acting and will have costumes and props to help bring their characters and story to life. Children should dress comfortably and bring a water bottle.

Kickstart STEM

Instructor: WHS Students

This course is designed to not only build STEM knowledge and critical thinking skills in your child, but also foster a lifelong curiosity for a wide variety of STEM topics. Each week, students participate in a different hands-on activity, carefully crafted to be engaging, informational, and inspirational. These lessons cover subjects ranging from aeronautics, to cellular biology, to the physics behind extreme weather.

Math Explorers

Instructor: Dr. David Hiller, Stempogo Education (stempogo.com)

In Math Explorers, we introduce unexpected kinds of math for elementary students by playing games, solving puzzles, and using our hands. We make art, run races, explore voting systems, build towers, and more. Most importantly, we have fun. In the process, we give children a new understanding of all things we can do with math, and the confidence to know that they can do it.
