Recycle Plastic Bottles and Aluminum Cans on Fields and Playgrounds

June 14, 2023 (Wellesley, MA) – Remember to recycle when enjoying Wellesley fields and playgrounds! The Wellesley Department of Public Works (DPW) has worked with the Climate Action Committee and Natural Resources Commission to install plastic bottle and aluminum can recycling receptacles at 26 locations throughout the Town's athletic fields and playgrounds.

Help keep Wellesley clean and green by using these receptacles!

PLEASE REMEMBER TO:

- Pour out all liquids in your container before disposing.
- NO PLASTIC CUPS in Plastic Bottle Only receptacle.
- Aluminum cans only in Cans Only receptacle.

Wellesley's clean recycled product generates revenue for the Town. When these recyclable containers are contaminated with other waste, this material cannot be accepted as recycling and becomes a trash cost.

Visitors are strongly encouraged to carry out waste whenever possible, take it home and properly recycle this waste. Organized groups and/or gatherings should always carry out waste as required by their permits.

For more information or feedback on this program please e-mail DPW at dpw@wellesleyma.gov
