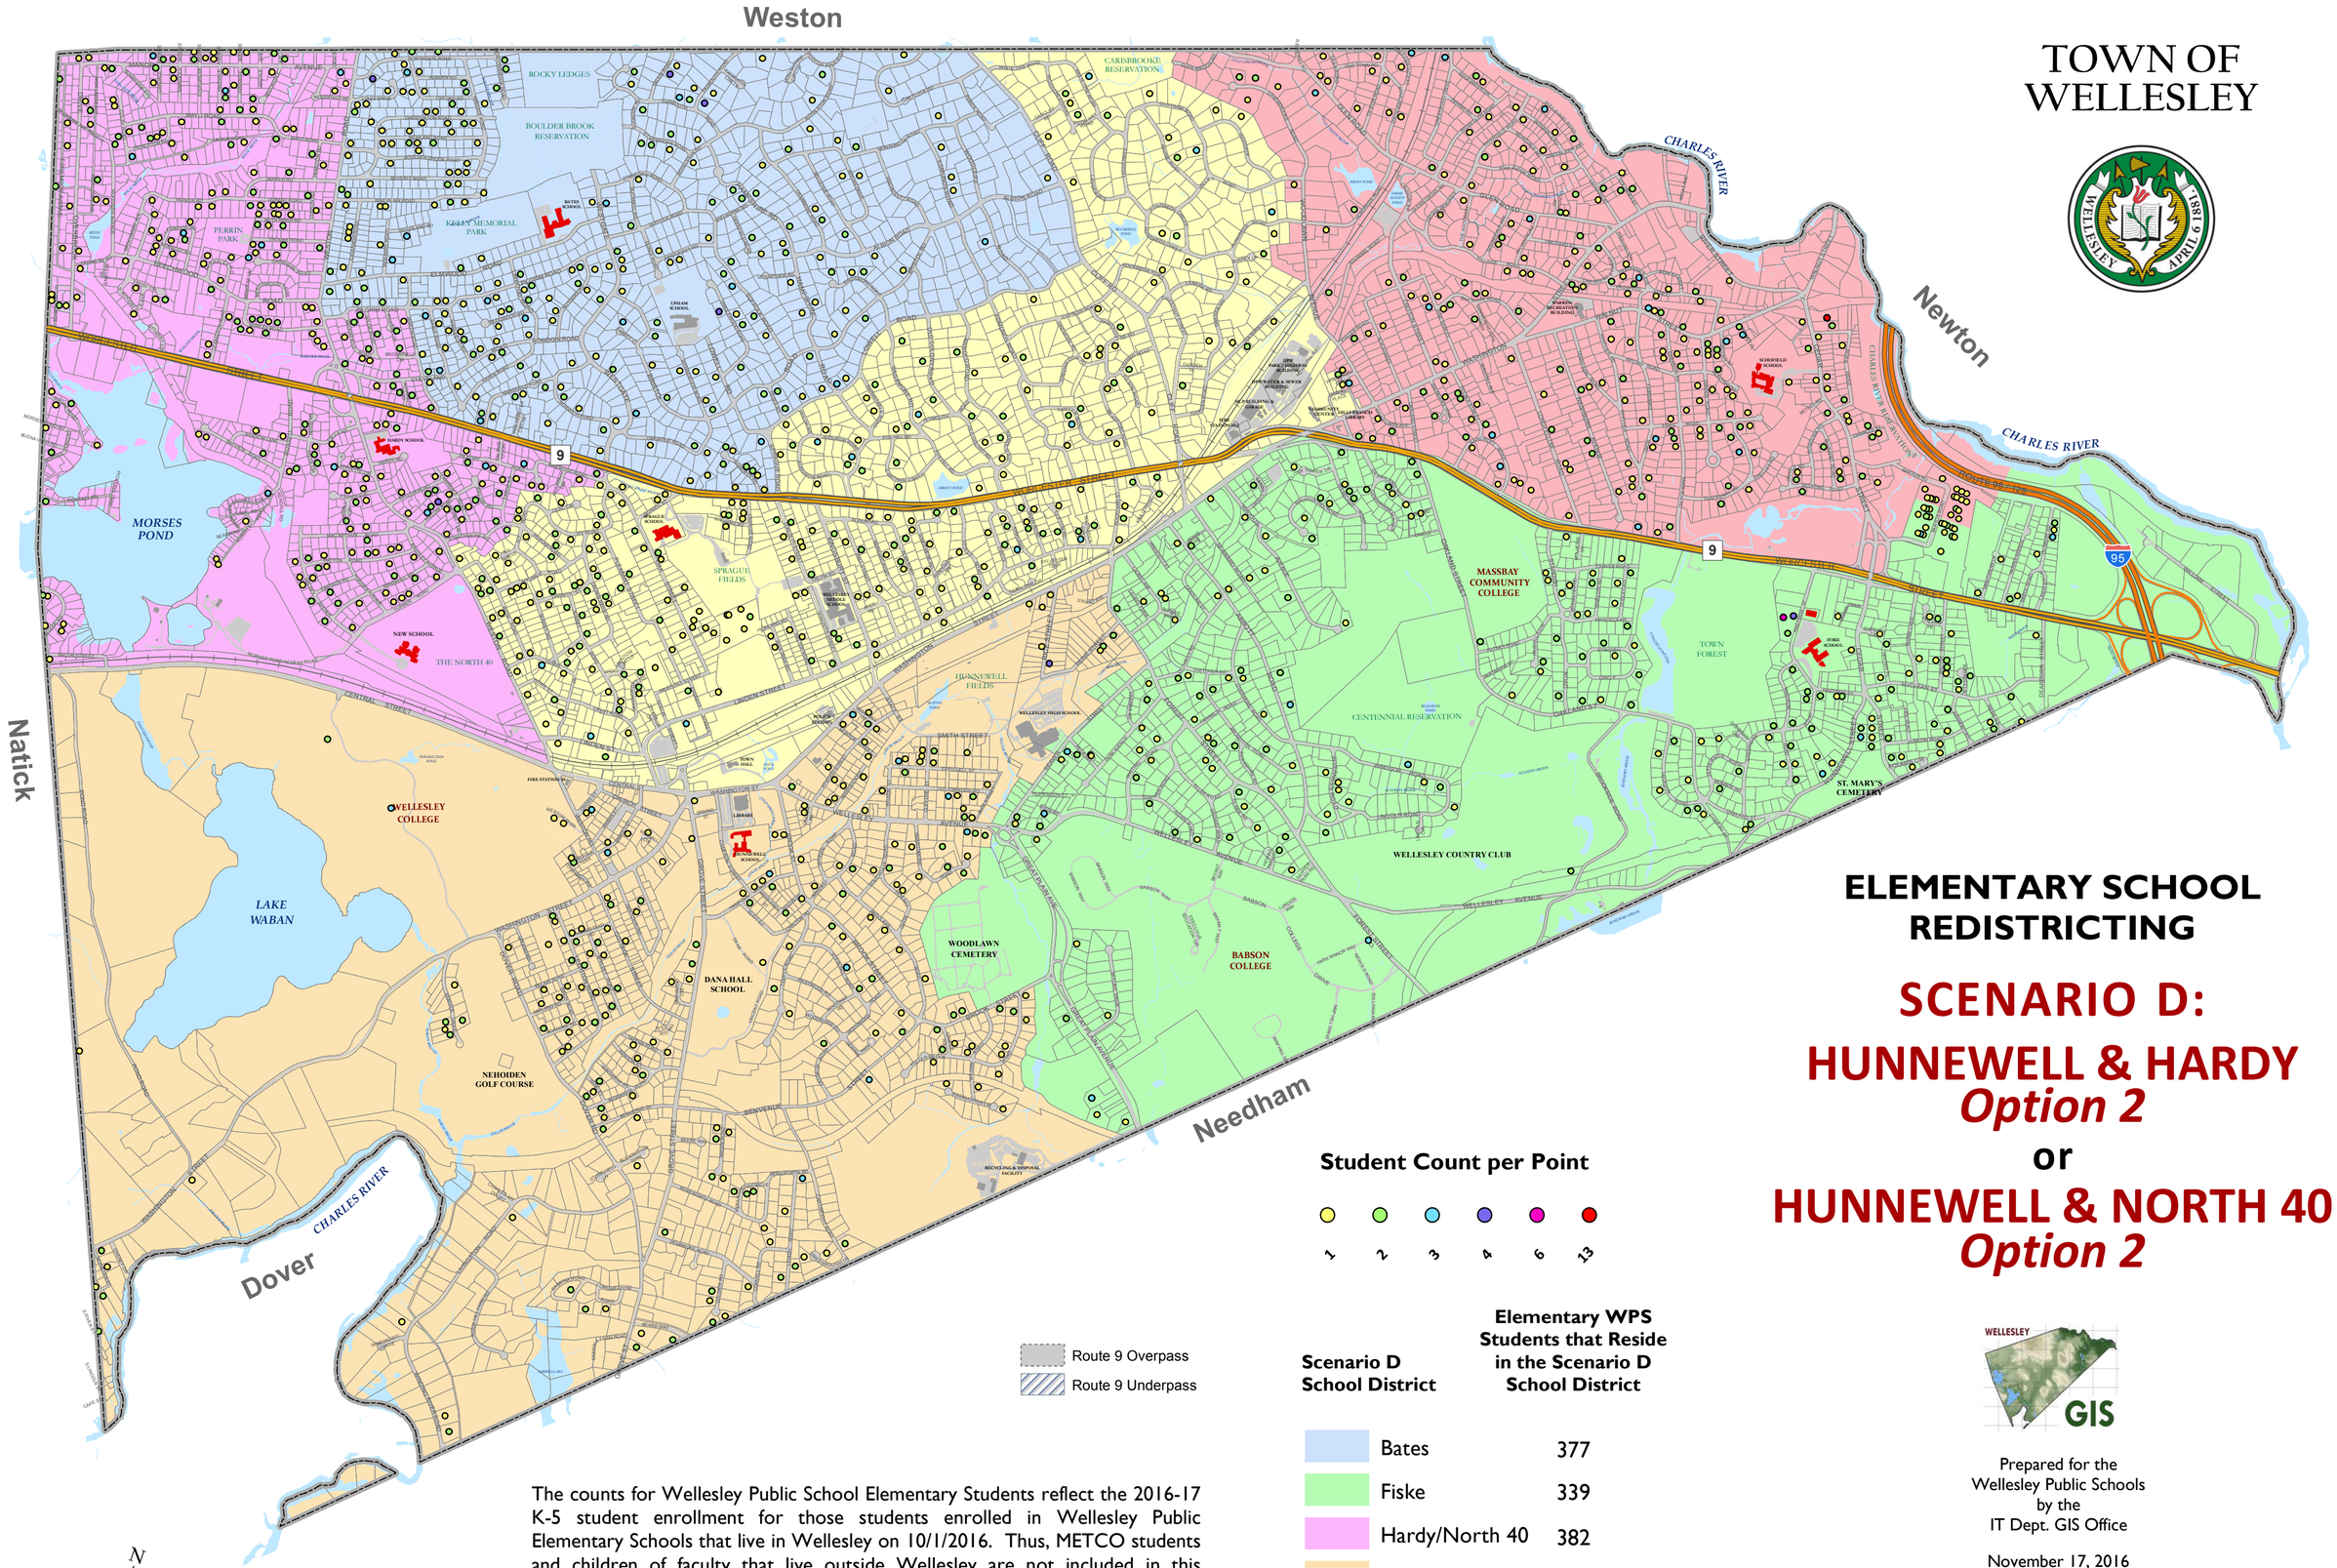
# ELEMENTARY SCHOOL REDISTRICTING

## SCENARIO D:

## HUNNEWELL & HARDY *Option 2*

## or

## HUNNEWELL & NORTH 40 *Option 2*



Route 9 Overpass

Route 9 Underpass

**Student Count per Point**

1 2 3 4 6 13

| Scenario D School District | Elementary WPS Students that Reside in the Scenario D School District |
|---|---|
| Bates | 377 |
| Fiske | 339 |
| Hardy/North 40 | 382 |
| Hunnewell | 323 |
| Schofield | 357 |
| Sprague | 376 |

The counts for Wellesley Public School Elementary Students reflect the 2016-17 K-5 student enrollment for those students enrolled in Wellesley Public Elementary Schools that live in Wellesley on 10/1/2016. Thus, METCO students and children of faculty that live outside Wellesley are not included in this analysis. Children that attend a different school than they are districted to are counted at their place of residence rather than the school they are attending so that we can analyze student populations as a whole in geographic areas. The student counts for these geographic outliers will be accounted for in student population totals for schools when final scenarios are considered.
